In and Out of Trouble

H.E.A.T

Even though some things will never change
With or without you
Broken every promise every chain
I have ever been tied to
I'm just another failure in my life
I got to fight just to stay alive
I'm just another hole to fill inside

Somewhere on the way I just got lost
Guess when I lost you
Can't stay between the lines that I have crossed
Yeah collisions will cost you
Who will be my accident tonight
I got to fight just to stay alive
I'm just another memory

Running in and out of trouble
Going down going under yeah
Running in and out of trouble
Hit me hard make it double yeah

Waking up the fire in my mind
With or without you
I wonder how you took it all this time
Now you no longer have to
Who will be my accident tonight
I got to fight just to stay alive
I'm just another memory

Running in and out of trouble
Going down going under yeah
Running in and out of trouble
Hit me hard make it double yeah

Running in and out of trouble
Hit me hard make it double
Running in and out of trouble
For the rest of my life
Running in and out of trouble
Hit me hard make it double

(Solo Saxophone & Guitar)

I'm just another memory

Running in and out of trouble
Going down going under yeah
Running in and out of trouble
Hit me hard make it double yeah

Running in and out of trouble
Hit me hard make it double
Running in and out of trouble
For the rest of my life
Running in and out of trouble
Hit me hard make it double

(Outro Solo Saxophone & Guitar)
