

Into the Great Unknown

H.E.A.T

Leave me here alone let me have some time
To regain my self-control
Faces come and go waiting for the time to
Commence stop, drop and roll

Only one thought goes around and 'round
There's one way up, no way down
Godspeed, hope you enjoy your stay
As you're making your way

Into the great unknown
But is it the end of the road
Or a one way ticket to fortune and fame
The world will follow my name
Into the great unknown
But is it the end of the road
I'm not gonna fall without a fight
Climb to the edge of the night
Straight into the great unknown

Silence all around only the beating
Of my heart still makes a sound
Star bound, up or down
Way above the ground
And I'm twisted inside out

Just one thought
I will never give in
Forgive me now for all my sins
My dear I'm sure you will see me again
When we're finally sent

Just one thought
I will never give in
Forgive me now for all my sins
My dear I'm sure you will see me again
When we're finally sent

Into the great unknown
But is it the end of the road
Or a one way ticket to fortune and fame
The world will follow my name
Into the great unknown
But is it the end of the road
I'm not gonna fall without a fight
Climb to the edge of the night
Straight into the great unknown
