

One by One

H.E.A.T

The smoke is rising from out of town
They're tearing down utopia
The tunnel vision, it came undone
For you and me and everyone

No more! Can't live here with a restless soul and a restless heart
No more! Gonna go out of, out of your mind

One, one by one, soon they all will sing the song
Going down, one by one, we won't stop until we're done
They fall one by one!

We have wasted so many years
Somewhere in time, no more tears
Without a warning without a sign

The lightning strikes from out the skies

No more! Can't live here with a restless soul and a restless heart
No more! Gonna go out of, out of your mind

One, one by one, soon they all will sing the song
Going down, one by one, we won't stop until we're done
Til we're back where we belong
One by one!

We will go on we will go on
Drawing blood from a stone
We will live on, the fight has begun
And you'll never walk alone
