

Who Will Stop the Rain

H.E.A.T

Maybe the love we have
will fade away
Then tell me: is it you or me
we have to blame
Girl, there's something
I must tell you

You know we're still standing
Together as one
And if you still want me
I'll be there

Who will stop the rain
From falling down all over us
Who will stop the rain
Believing is the only way

Lately we pretend
like there is nothing to save
But love need no reasons,
no promise, to exist
We've gotta take,
we've gotta take what we want

You know we're still standing
Together as one
I know i still want you
I still care

Who will stop the rain
From falling down all over us
Who will stop the rain
Believing is the only way
