

Creep

Hadise

Don't forget I won't forgive
All you've done for as long as I live
You'll be on top of my black list
You'll be the target of my fist

'Cause although violence is not my language
I could imagine you in handcuffs
You're just garbage of my soul
I could punch you like a fly on the wall

Okay, I guess I held enough
But the way you played it made me tough
Now I just wanted to be clear
I never ever ever want you near

'Cause you're not a soulmate, that's such a mistake
You really thought you could infiltrate
The integrity of my soul
Was I dreaming? You couldn't take control

You know this song is about you
Bet you're even proud to see that you've been so cruel
Been helpless for a while, had sadness in my smile
And you thought that was cool, you fool

Don't forget I still regret
I even listened to a word you've said
You're dirtier man than my coke
So keep on lying 'til you choke

Try to mess up my youth, true this of you
You play it so rude, there's no excuse
For every bad move that you've done
But don't never ever shout out that you've won

You know this song is about you
Bet you're even proud to see that you've been so cruel
Been helpless for a while, had sadness in my smile
And you thought that was cool, you fool

You know this song is about you
But I won't allow to make you rule my future
Oh you're such a pig, how can you fall asleep
Knowing you are you? You fool

Now it's time to carry on
Time's been lost but I'm still young
Wish I could wake up some day
In a peaceful, unaffected way

You're alive but I'm not scared
I'll survive, to that I swear
Knowing God will make you pay
When you stand accused on Judgement Day...

Ooh yeah, yeah, ooh yeah
How can you fall asleep

Knowing you are you?

You know this song is about you
Bet you're even proud to see that you've been so cruel
Been helpless for a while, had sadness in my smile
And you thought that was cool, you fool
