

## Decrepit Dejection

Haemorrhage

Dysenteric recrements retrained in your bowels  
Disolving gastric mucose by fermenting rot  
Collapsing colon dilating small intestine  
Malodorous faecal mass corroded in sepsis

Decrepit dejection

Coprophagist bacteria munching rectal cysts  
In painful tenesmus your entrails twist  
Dislocated pilorus gases deflagrate  
Your digestive system is violently  
evecuated

Decrepit dejection
