Dm
Gettin back a'to it
                      Am
I wanna get back to everything I had
            Dm                          Am
Before you came around, you fucked me up
What am I do to now?
                      Dm
But in my mind I keep seeing him, seeing me,
                           Am
And how good we used to be, used to be, used to be, used to be, used to be
       Dm
I keep seeing him, seeing me
                           Am
And how good we used to be, used to be, used to be, used to be, used to be

    F               G
And now I'm finding I cannot deal with this
Am             G
Going crazy wanna go leave you wanting it
F               G
Say you wanna work this out boy
Am                                      C
Don't need to beg 'cause you'll never get it again

                   F                        G
'Cause I'm better off this time so not this time
          Am             C
No baby not this time around
                   F                        G
Oh I'm better off this time so not this time
         Am               C
'Cause I found out yeah, I found out now

Dm   Dm   Am   Am
Dm   Dm   Am   Am

   Dm                           Am
Forgiveness is that all you want from me
         Dm
I won't fall, into the arms of the one who turned on me
Am
It's getting too dark for me to see

            Dm
So I keep flashing back to when we met
        Am
We were better then, better then, better then, better then
Dm
I held you I didn't have to share it then
Am
Better then, better then, better then, better then

F               G                       Am
Now my mind is taking me back to this
                        G
Too much time to think about what it is
```

F                 G

Well don't need to beg 'cause you'll never get it again

                    F                       G
'Cause I'm better off this time so not this time
