

## Leaning on You

HAIM

I might forget to turn out all the lights  
But you take care of me when I have to leave at dawn  
I might sleep in past all my alarms  
But you take care of us when I make it touch, because

It takes all that I got  
Not to fuck this up  
So won't you let me know  
If I'm not alone leaning on you?

Was I fearless at seventeen years old?  
Or was I fakin' it? I was just a kid leavin' home  
Now I get scared for reasons I don't know  
Is it just because I ain't tough enough to be alone?

It takes all that I got  
Not to fuck this up  
So won't you let me know  
If I'm not alone?

And I like what we got  
But I'm scared of what it's not  
So won't you let me know  
If I'm not alone, leaning on you?

It takes all that I got  
Not to fuck this up  
So won't you let me know  
If I'm not alone?

And I like what we got  
But I'm scared of what it's not  
So won't you let me know  
If I'm not alone, leaning on you?
