

# Momentary

## Hands Like Houses

I'm just interference  
Noise, and whispers  
A shadow on the light  
I'm dust on a record  
The stop is static  
The click and compromise

A discord, a spark, a Silhouette  
A Shaded ghost an echo  
Of Whats Left

Help me touch the ground  
Cause all that's heavy  
In me still won't  
Weigh me down

The path of least resistance  
Pins and needles a short circuit  
To the ground

And I'm Interruption, infinite  
And Momentary, A Moments destruction  
Incomplete and temporary

Help me touch the ground  
Cause all that's heavy  
In me still won't  
Weigh me down  
Bring me back to the  
Surface I'm done With  
This Weightlessness  
Help me find my way back  
Down

I'm just interference a moments  
Place and time

And I'm Interruption, infinite  
And Momentary, A Moments destruction  
Incomplete and temporary

Help me touch the ground  
Cause all that's heavy  
In me still won't  
Weigh me down  
Bring me back to the  
Surface I'm done With  
This Weightlessness  
Help me find my way back  
Down
