

Kiss It Goodbye

Hannah Montana

Kiss it goodbye
Kiss it goodbye

What you waitin' for
An opportunity tonight.
Come on it's at your door
You're crazy if you leave it locked.

You know you gotta let it in
And finally I know it too
The questions what it's always been,
So what are you gonna do?

(Low) another chance
(Low) I'll understand
(Low) if you're coming hello

Kiss it goodbye (if here ain't holdin' you back)
Kiss it goodbye (your little panic attack)
Kiss it goodbye (I, I did it and it's o-m-g)

I'm a different girl
Kiss it goodbye
Kiss it goodbye

You procrastinate the world,
It's gonna pass you by
Already runnin' late
It's either runnin' bad or fly

You crash into the ground
And have you pick yourself and laugh
You keep on shootin' for the stars
What other choice do you have?

(Low) another chance
(Low) I'll understand
(Low) if you're coming hello

Kiss it goodbye (if here ain't holdin' you back)
Kiss it goodbye (your little panic attack)
Kiss it goodbye (I, I did it and it's o-m-g)

I'm a different girl
Kiss it goodbye
Kiss it goodbye

Kiss it goodbye
Kiss it goodbye

Kiss, kiss, kiss it all goodbye-bye
Kiss, kiss, kiss it all goodbye-bye
Kiss, kiss, kiss it all goodbye-bye
Kiss, kiss, kiss it all goodbye

Kiss
Yeah, yeah

Kiss it all goodbye-bye
(Bye)
Yeah

Kiss it goodbye
Kiss it goodbye

Kiss it goodbye (if here ain't holdin' you back)
Kiss it goodbye (your little panic attack)
Kiss it goodbye (I, I, I did it and it's o-m-g)

I'm a different girl
Kiss it goodbye
Kiss it goodbye

You procrastinate the world,
It's gonna pass you by
Already runnin' late
It's either runnin' bad or fly

You crash into the ground
And have you pick yourself and laugh
You keep on shootin' for the stars
What other choice do you have?

(Low) another chance
(Low) I'll understand
(Low) if you're coming hello

Kiss it goodbye (if here ain't holdin' you back)
Kiss it goodbye (your little panic attack)
Kiss it goodbye (I, I, I did it and it's omg)

I'm a different girl
Kiss it goodbye
Kiss it goodbye

Kiss it goodbye
Kiss it goodbye
