

# The Sky Is Falling

Harem Scarem

What you love and what you fear  
Are sometimes the same things  
Everything that you hold dear  
Can vanish into thin air  
Sometimes life's a bitter pill  
But we all wanna taste it  
Euphoric slides only downhill  
You're stuck and you're never moving on  
You know tomorrow's too late  
The tables ain't turning

Hold on for the ride  
It's a race to the bottom  
The sky's always falling  
The roller coaster of life  
That won't let you off  
So you better hold on  
To what you love

Angels try to spread their wings  
But all flight has been grounded  
Genocide of your dreams  
And there's no awaking from at all  
Yeah, we're all fighting fate  
It's part of the journey

Hold on for the ride  
It's a race to the bottom  
The sky's always falling  
The roller coaster of life  
That won't let you off  
So you better hold on  
To what you love

So just hold on for the ride  
It's a race to the bottom  
The sky's always falling  
The roller coaster of life  
That won't let you off  
So you better hold on  
To what you love

Hold on for the ride  
It's a race to the bottom  
The sky's always falling  
The roller coaster of life  
That won't let you off  
So you better hold on  
To what you love

So just hold on for the ride  
It's a race to the bottom  
The sky's always falling  
The roller coaster of life  
That won't let you off  
So you better hold on  
To what you love
