

## The Omen

Have Mercy

Feel his power die by his sword  
The hell with Satan, live for our lord  
Unholy book filled with lies  
Power surges watch them die

Feel his force, watch them die  
The Omen

The fallen victims in their haze  
Computerized wizards, man is dazed  
The fallen angels rise from hell  
The jackal gives birth at the toll of the bell

Man's future looks to better days  
The earth returns to the sun's rays  
God smiles as demons descend  
The holy cross turned right side up again
