

Point of No Return

Havok

The world is turning black
There is no turning back
We've reached the point of no return
You need to open your eyes
You can see it even if you're bllind
There is so much we've yet to learn
It should be stressed
To change the world around us
Before everyone is dead
Distractions all around
Mankind must be profound
And look at what is ahead

We can change our future
We can change our future
We can change our future

Right now

Perseverance
The concern
Can't go back
Point of no return

Perseverance
The concern
Can't go back
Point of no return

Turning the pages of our lives
We write the book
We choose the cause and effect
What's done is done
Stuck in perpetual motion
Past, present, future connect
It should be stressed
To change the world around us
Before everyone is dead
Distractions all around
Mankind must be profound
And look at what is ahead

We can change our future
We can change our future
We can change our future

Right now

Perseverance
The concern
Can't go back
Point of no return

Perseverance
The concern
Can't go back
Point of no return

We can change our future
We can change our future
We can change our future

Right now

Perseverance
The concern
Can't go back
Point of no return

Perseverance
The concern
Can't go back
Point of no return
