

found my friends

Hayley Kiyoko

Found my friends, I'm not dead, here we go again
What's the time? How long has it been?
Help me come alive, sail across the sky, take me further
Can we last all night again?

I keep on runnin' beside myself
I keep on runnin', don't think I'm well
I can't be alone, beside myself
I can't be alone, I need some help

I found my friends, I found my friends
Can't feel my hands, can't feel my hands
I'm walkin' out, just turn around
I feel left out, don't burn me down, just let me out

Swimmin' deep in a pool filled with swirlin' thoughts
Come on, stay, be my company
I see someone else talkin' to themselves
Maybe it's a mirror lookin' down on me

I keep on runnin' beside myself
I keep on runnin', don't think I'm well
I can't be alone, beside myself
I need some help, I need some help

I found my friends, I found my friends
Can't feel my hands, can't feel my hands
I'm walkin' out, just turn around
I feel left out, don't burn me down, just let me out

I just wanna dance with you tonight
I just wanna dance with you tonight
I just wanna dance with you tonight
I just wanna dance (Wanna dance), I just wanna dance (Wanna dance)
I just wanna dance with you tonight (I found my friends, I found my friends)
I just wanna dance with you tonight (I found my friends, I found my friends)
I just wanna dance with you tonight (I found my friends, I found my friends)
I just wanna dance, I just wanna dance (I found my friends, I found my friends)

I found my friends, I found my friends
Can't feel my hands, can't feel my hands
