

Luna, Luna, Luna, Luna

Luna, Luna, Luna, where did you get that pretty glow?
How did you keep it all these years? How did you put it?
Luna, Luna, Luna, I just wanna be like you
See the world the way you do, keep my head up in cloud

Rippi

G up my jeans and my clothes
Get you and me all alone
Show me your visions and

Don't leave me on my o-o-own, you get me wild
You kno-o-own, I'll taste your shadow
Hm, you know what you want (Oh, oh), hm, I know what I want (Oh
, oh)
Hm, so stay with me and watch the sun come uP

Luna, Luna, Luna, got you dancing in my eyes
Staring at you hypnotized, tryna figure you out
Luna, tell me do you want me here right under you?
Tryna follow every move, will you ever come down?

Ripping up my jeans and my clothes
Get you and me all alone
Show me your visions and

Don't leave me on my o-o-own, you get me wild
You kno-o-ow, I'll taste your shadow
Hm, you know what you want (Oh, oh), hm, I know what I want (Oh
, oh)
Hm, so stay with me and watch the sun come up

Wait, wow, my body's breathing in stars
I guess I already have your heart, yeah
Uh, uh, oh, uh, uh, uh, oh
Uh, uh, oh, uh, uh, uh, oh
O-o-own, you get me wild
You kno-o-own, I'll taste your shadow
O-o-own, you get me wild
You kno-o-own, I'll taste your shadow
Hm, you know what you want (Oh, oh), hm, I know what I want (Oh
, oh)
Hm, so stay with me and watch the sun come up
