

# Palm Dreams

Hayley Kiyoko

Cruising down the only road  
That leads me to a place that I know, I know  
Traveled far, I've traveled wide  
I had to go away to find home, I'm home

All the palm trees have the money  
Watching from above the endless party  
California, just a bad dream  
I will hang around until you want me

From the hillside (they can party with us)  
To the valley (they can party with us)  
Watch the sun come up and warm my body  
California (they can party with us)  
Just a bad dream (they can party with us)  
I will hang around until you break me

Star, stars  
I'll make it to the top  
I'm shining like their cars and rings  
The palms see everything  
Star, stars  
They watch you like a hawk  
I'll try to keep 'em company  
The palms see everything

Riding all the highs and lows  
I'm never looking back 'cause I know, I know  
Walking through the danger zones  
I'll make it anywhere 'cause I'm home, I'm home

All the palm trees have the money  
Watching from above the endless party  
California, just a bad dream  
I will hang around until you want me

From the hillside (they can party with us)  
To the valley (they can party with us)  
Watch the sun come up and warm my body  
California (they can party with us)  
Just a bad dream (they can party with us)  
I will hang around until you break me

Star, stars  
I'll make it to the top  
I'm shining like their cars and rings  
The palms see everything  
Star, stars  
They watch you like a hawk  
I'll try to keep 'em company  
The palms see everything  
Star, stars  
I'll make it to the top  
I'm shining like their cars and rings  
The palms see everything  
Star, stars  
They watch you like a hawk

I'll try to keep 'em company  
The palms see everything

My horizon, stars are shining  
Feel them blind me as I get too close  
My horizon, stars are shining  
Feel them blind me as I get

Star, stars  
I'll make it to the top  
I'm shining like their cars and rings  
The palms see everything  
Star, stars  
They watch you like a hawk  
I'll try to keep 'em company  
The palms see everything  
Star, stars  
I'll make it to the top  
I'm shining like their cars and rings  
The palms see everything  
Star, stars  
They watch you like a hawk  
I'll try to keep 'em company  
The palms see everything

If you party with us we'll go up  
If you party with us we'll go up  
If you party with us we'll go up  
If you party with us we'll go up (they can party with us)  
If you party with us we'll go up (they can party with us)  
If you party with us we'll go up (they can party with us)  
If you party with us we'll go up (they can party with us)  
If you party with us we'll go up  
If you party
