I needed just a hit, one hit It's a very little hit, I'm sure I won't like it I needed to be heard One hit would send me flying I got away with murder Last night in the parking lot In cold blood I have murdered Parts of us that we forgot I walked into a kiss, one kiss From the very lovely miss who lives to fulfill my wish I needed to be hurt One kiss would send me flying I got away with murder Last night in the parking lot In cold blood I have murdered Parts of us that we forgot I will be going nowhere I will be going nowhere I will be going nowhere Nowhere fast I will be going no, I will be going no I will be going no, I will be going no I will be going nowhere Nowhere fast I had to write a hit, one hit It's a very little hit, I'm sure you won't like it I needed to be heard One hit would send me flying I got away with murder Last night in the parking lot In cold blood I have murdered Parts of us that we forgot And in the end I grant you A farewell and final kiss I got away with murder Who's the next to make the list? I will be going nowhere I will be going nowhere I will be going nowhere

I will be going no, I will be going no I will be going no, I will be going no I will be going nowhere

Nowhere fast
