

# Die Religion Die

Head

I'm sick of all your rules  
They're so man-made  
You treat them all like fools  
You put my name to shame  
I'm everything you're not  
I give them love  
My ways you have forgot  
You put yourselves above

I'll testify!  
It's time to see religion die!  
The truth can't lie!  
It's time to see religion die!  
Who cares? Who's right?  
It's time to see religion die!  
I'll crush the fight!  
It's time to see religion die!

My church is not inside your building walls  
On Sundays you all hide, while the world just falls  
Now go into the world and destroy Hell  
You have authority, use it for the kill

I'll testify!  
It's time to see religion die!  
The truth can't lie!  
It's time to see religion die!  
Who cares? Who's right?  
It's time to see religion die!  
I'll crush the fight!  
It's time to see religion die!

Children come away with me  
I want you all to be mine  
I am taking back what's mine  
And you've killed too much time  
With pointing all your fingers  
At your kids that's why they're lost  
Try to look deep in their eyes  
You will see suicide  
Blame it on yourself  
Cause no one else will pay your price, your price

Die just, die religion die, just die  
Die just, die religion die, just die  
Die! Die! Die! Die! Die! Die! Die!  
Die! Religion, die! Die! Die! Die!

Do not be afraid  
Religion is man-made  
Everything is OK  
The rules have just been changed
