

## City's Burning

Heart

Young man is angry, girl is afraid  
She want to get high, He want to get paid

He had to jump up, she had to sit down  
When they heard those words  
About the trouble downtown

He had to shout, she had to cry  
He wanted to kill, she wanted to die

City's burning  
Cities burning

Grab for the dial, tune out the fright  
But he turns left and she turns right  
She look for love songs, he buys the drive  
But all they can pull is bad news in tonight

City's burning  
Cities burning

Ooohh mama tell me what do do  
Aaahh daddy you better pull us through
