I Swallowed A Dragonfly

Heartless Bastards

Oh, I want to go To a place we've never been Be down for a while While coming up to the surface

I swallowed a dragonfly In the hopes that it would help me fly And it did for just one day And that day I saw everything

And I keep on moving forward Even when I'm down And I keep on moving forward All the time

And I keep on moving forward All the time And I keep on moving forward Even when I'm down

And I don't know Don't know what it is That keeps me down
