

Fairytale

Heather Dale

There's supposed to be a carriage
With a footmen and a groom
There's supposed to be a palace
And I escape the cinders and the broom
There's supposed to be a wedding
With glass slippers and a crown
You're supposed to be Prince Charming
Not chasing girls out in the town

[Chorus]

Don't you want a fairytale?
Don't you, don't you want this fairytale?
Don't you wanna live my fairytale with me?

There's supposed to be a tower
With brambles all around
And I'm suppose to be a princess
High above and looking down
It's supposed to be important
That you come and set me free
You're supposed to be a hero
Not out with easier girls than me

[Chorus]

Don't tell me in your story
If you can play like Peter Pan
With your second start till morning
And your boy within the man
In a happy ever after
We're suppose to share the dream
Where you're riding to my rescue
And I get to be the Queen

[Chorus X]

Don't you wanna live my fairytale with me?
