

Feels like we're just kids
No hands, freewheeling
Didn't know it could be like this
So good, so easy
Feels like there's no rules
Bright sun, doors open
No games I'm afraid to lose
Just love, unspoken

And I like the way you said
"I got no back up plan, it's only you"
And I like the way you have
No fear of what is true

Feels like we're on fire
Your words in my mouth again
Some ancient soul desire
Coming back again

And I like the way you said
"I wanna come close to you, to feel you breathe"
And I like the way it feels
Like my heart's a river that's found the sea

And all the years we missed
No matter now cause we're on track
And every time we kiss
All those years, gonna take them back

And I like the way you said
"I got no back up plan, it's only you"
And I like the way you have
No fear of what is true

Ooh...

Feels like we're just kids...
