

Put the Word Out

Heatwave

Got to put the word out
We can take it higher... than high
...

We've got a message for the nation
To put your mind at ease
It's just an open invitation
So you can party how you please

So take your mind off what you're doin'
And let your body go
Let's dig it right into this groovin'
You've got to show

So put the word out
Spread it around
We're gonna party tonight
So put the word out
All over town
We're gonna raise that roof high
(We can reach right up to the sky)

We've got a funky situation
That's all you need to know
Just like the train that leaves the station
You've got to blow

And when the feeling's bout to get'cha
We're gonna cook some mo'
Turn up the heat so it can hit'cha
We're gonna burn you on the floor

So put the word out
Spread it around
We're gonna party tonight (put the word out)
Yes, put the word out
All over town
We're gonna raise that roof high
(We can reach right up to the sky)

Got to put the word out (higher)
We can take it higher... than high

Got to put the word out (higher)
We can take it high...

Put the word... all around... high

So put the word out
Spread it around
We're gonna party tonight (put the word out)

So put the word out
All over town
We're gonna raise that roof

So put the word out

All over town
We're gonna party tonight

Yes, put the word out
Spread it around
We're gonna raise that roof high
(We can reach right up to the sky)

Got to put the word out (higher)
We can take it higher... than high
...

Got to put the word out
We can take it higher
