

Where Did I Go Wrong

Heatwave

Where did I go wrong
Was my love too strong

I remember the days we were both at school
Not long ago
I was young and in love, just a teenage fool
Too young to know

I would always find
You were on my mind
Loving cards I'd send
But, girl, I just couldn't see that you were just a friend

Where did I go wrong
Was my love too strong
Where did I go wrong
Was my love too strong

I remember the nights when I'd walk you home

And steal a kiss or two
You would always tell me you could walk alone
You would insist

I would always know
You'd want me to go
But I stayed around
Cause, girl, I just knew for sure that true love I had found

Shoo-bee doo, doo-wah...

Where did I go wrong
Was my love too strong
Where did I go wrong
Was my love too strong

Shoo-bee doo doo-wah...
