

The Last Seven Days

Heaven 17

You don't wake up
You (?) wake up
There's someone hiding in the dark
Who is pulling his country apart

I've had seven days
And we want forget
The last seven days
And then it's over
One week in chains
And then we are free
Seven days alone
And then we're going home

Who want's a war ?
Who want's a firestorm ?
In the brightest day
Or the blackest night
Who are the ones who will fight ?

I've had seven days
And we want forget
The last seven days
And then it's over

(chorus) (?)

When will you learn
You've had your turn
Watch the go rush round and round
Watching them burning he town

I've had seven days
And we want forget
The last seven days
And then it's over
One week in chains
And then we are free
Seven days alone
And then we're going home
