

Almost Over

Hedley

One more kiss and we'll say goodbye
One last glass, you and I are over
Almost over

Heard it all before a million times
One last sip, you and I are over
Almost over

Almost over, almost over
You can't go far because you fall back over
Almost over, almost over, over

Ah
Oh
Ah

One last dance, we say goodnight
One more chance to close your eyes
It's over
Almost over

Never had to go, never had to try
One last sip, you and I are over
Almost over

Almost over, almost over
You can't go far because you fall back over
Almost over, almost over, over

Almost over, almost over
You can't go far because you fall back over
Almost over, almost over, over

Hey Alcohol, you'll be my girlfriend
To carry on, you'll be my best friend
We've seen it all
Yeah, we've undressed them
Gone too far
Just to impress them

Almost over, almost over
You can't go far because you fall back over
Almost over, almost over, over

Almost over, almost over
You can't go far because you fall back over
Almost over, almost over, over
