

# Free World

Helloween

No more excuses, no more regrets  
Living my life as good as it gets  
No more dictators, no thought control  
No asshole calls you a fool

The world's growing colder  
Can I prevent?  
Can I see clearer?  
Can I understand?

Imagine living in a free world  
Nations to be one  
Living in a free world  
I know it can be done  
Living in a free world  
Glorious and wild  
Living in a free world  
Hand in hand we start a better day

No politicians telling you lies  
Breeding their profits  
We pay the price

Endless oppression comes to an end  
Hope and relief all over the land

Over the rainbow I see a light  
Time for deliverance  
I'm ready to strike

Imagine living in a free world  
Nations to be one  
Living in a free world  
I know it can be done  
Living in a free world  
Glorious and wild  
Living in a free world  
Hand in hand we start a better day

Imagine living in a free world  
Nations to be one  
Living in a free world  
I know it can be done  
Living in a free world  
Glorious and wild  
Living in a free world  
Hand in hand we start a better day
