## I.M.E.

Helloween

I should not this I must not that No matter how I act I must regret It's not me It's not me I got to play What others say I got to turn it down when I feel great That's not me It's not me I Am Me Who do you think you are To tell me what to be I Am Me No matter what you say Today I keep my way I Am Me You make me sick You make me choke For me your way of life is just a joke It's not me It's not me I got a face I got a name Whatever you perceive is not the same That I see It's not me I Am Me Who do you think you are To tell me what to be I Am Me No matter what you say Today I keep my way I Am Me I got to change this To rearrange this Start writing onto my own pages It's just me It's just me It's just me I Am Me Who do you think you are To tell me what to be I Am Me No matter what you say Today I keep my way I Am Me How grave you think you are To tell me what to be I Am Me You better creep away Today I'm on my way

I Am Me
