

# I Wish I Were There

Helloween

I'm staring on at your picture  
How the wind picks up your hair  
Behind you a palm and the ocean  
How I wish I had been there

Yeah, too often we're not together  
Yeah, too often I'm far away

Know that I always care  
I wish I were  
I wish I were there  
No longer away, no dead air  
I wish I were  
I wish I were there

I'm listening to all of your stories  
What you've done and what you've seen  
Your face so small on my iphone  
And I'm touching you on screen

Yeah, too often we're not together  
Yeah, too often I'm far away

Know that I always care  
I wish I were  
I wish I were there  
No longer away, no dead air  
I wish I were  
I wish I were there

I never had a doubt I would achieve it  
I never allowed myself to fail  
But then when I was there  
I wished I were where you were  
I wish I had been there  
I think I got the moral of the story  
For every wish granted there's a snag  
The genie in the bottle never tells to take care  
I wish I had been there  
Wish I had been there

Know that I always care  
I wish I were  
I wish I were there  
No longer away, no dead air  
I wish I were  
I wish I were there

Know that I always care  
I wish I were  
I wish I were there  
No longer away, no dead air  
I wish I were  
I wish I were there

I wish I had been there  
I wish I had been there

I wish I had been there  
Wish I had been there
