

My God-Given Right

Helloween

Why should i wait, what is left there for me?
I come to claim
To win the game
Why should i plea for my fair and right move?
I come to play
I come to stay

I don't wanna bitch around no more
I don't wanna stand back anymore

Its my god-given right
To stand and fight
For what i like
It's my god-given brain
That cried in pain
Would i resign
There's nothing to gain
If i would restrain
There's nothing to find
If i stay behind
It's my right
My god-given right

Why should i lose if i am meant to win?
I know i can
I've got a plan
All that they told me is right and so wrong
I went through schools
Found my own rules

I don't wanna bitch around no more
I don't wanna stand back anymore

It's my god-given right
To stand and fight
For what i like
It's my god-given brain
That cried in pain
Would i resign
There's nothing to gain
If i would restrain
There's nothing to find
If i stay behind
It's my right

My god-given right
It's my god-given right
My god-given right
It's my god-given right

It's my god-given right
To stand and fight
For what i like
It's my god-given brain
That cried in pain
Would i resign
There's nothing to gain

If i would restrain
There's nothing to find
If i stay behind
It's my right
My god-given right
