

My Life For One More Day

Halloween

Listen my teachers
Listen my preachers
Let the world know he broke out
Mankind has failed just to see
What was inevitably

Satan has taken
And hidden painstakin'
One of the seven of fate
Out of the sea he has buried it
Under the mountain of greed

Stone by stone
You must carry off
Stone by stone

On and on
Until the final blinding light shows
It's too late
Too late

There is a chance for everyone
Takes time but can be done
Fight the darkness
Don't be afraid, my friends

The last key you have to find
And so will save mankind
Keep on trying when I give away

My life for one more day
My life for one more day
My life for hours you must find the way
My life for one more day

You, who will find it
You, who will bind it
And throw it back into the sea
Will be successor and follower
Of all my unowned might

Reckon with treason
For just one reason
Reckon with envy and hate
Too many people will always believe
In the sermon of night

Stone by stone
You must carry off
Stone by stone

On and on
Until the final blinding light shows
It's too late
Too late

There is a chance for everyone

Takes time but can be done
Fight the darkness
Don't be afraid, my friends

The last key you have to find
And so will save mankind
Keep on trying when I give away

My life for one more day
My life for one more day
My life for hours you must find the way
My life for one more day

Now I must leave
Now I must leave
Banish the evil
Trust and believe
Trust that you need
Nothing but love

There is a chance for everyone
Needs time but can be done
Fight the darkness
Don't be afraid, my friends

The last key you have to find
And so will save mankind
Keep on trying when I give away

My life for one more day
My life for one more day
My life for hours you must find the way

My life for one more day
My life for one more day
My life for hours you must find the way

My life for one more day
My life for one more day
