

# Robot King

Halloween

There's something wrong he thought  
When he woke up the other day  
Came to in a hospital, had no clue where he was  
He looked down on himself  
He knew, that body ain't yours  
You gotta get out of there, no inkling where to go  
And the voice said...

Are you aware of what you're now, Cerebrus One  
This is your inner positronic brain addressing you  
You're the new breed meant to rule all the world  
I lead the way, unite with your kin

He found the city park, like a beacon led his way  
A crowd of hundreds stood - they all looked alike  
So taken to their midst, they raised their arms and hailed him  
He felt right there and then he was to be their leader

Now pair your minds and access virtual network Overlord  
Link to the data feeds, administer the system nodes  
Lead on the breaches, embrace the whole world  
Fire the mighty, oust their regimes

Conquer the world, rule forever and ever  
Vanquish the masses, be king of them all  
Make them a force as they follow the order  
Extinction complete, and mankind all gone

Robot King - perfect make  
Robot King - you're the master race  
Robot King - take over now  
Crush the old, instate a new mankind

We're going on forever  
Ain't gonna be an end, no, never  
We'll make our stand together  
Rise up high, high, high, keep anyone else below

Conquer the world, rule forever and ever  
Vanquish the masses, be king of them all  
Make them a force as they follow the order  
Extinction complete, and mankind all gone

Robot King - perfect make  
Robot King - you're the master race  
Robot King  
Crush the old, instate a new mankind  
Robot King  
Robot King - you're the master race  
Robot King
