

Sun 4 the World

Helloween

Forty million years ago
There was a boy called Leif
His skin was gray, his eyes were red
The tentacles counted five

Grown up in a normal house
His parents beloved son
There never was the slightest sign
He'd be the chosen one

Leif
(No)
Help us
(No)
Shelter us

He turns into the sun 4 the world
Sun 4 the world
What would I say
(What would I say)
Would it be me, my friend

Down on Earth, we see a star
Dying in it's light
Then suddenly it all explodes
A new sun shines with Leif

Leif
(No)
Help us
(No)
Shelter us

He turns into the sun 4 the world
Sun 4 the world
What would I say
(What would I say)
Would it be me

Sun 4 the world
Sun 4 the world
What would you do
(What would you do)
Would it be you, my friend

Leif, help us
Shelter us

He turns into the sun 4 the world
Sun 4 the world
What would I say
(What would I say)
Would it be me

Sun 4 the world
Sun 4 the world
What would you do

(What would you do)
Would it be you, my friend
