

## Last Sunset

Hellshock

Dreamscape of a holocaust  
Followed where no one else would tread  
Exodus to illusion  
We're all buried where you've led

You can't hold your forked tongue  
Will you deserve as you've labeled  
You've carved a twisted fate  
Not on the side of devils or angels  
No wait left for the end  
Prepare for the worst Cains and Abels  
Last supper for their lies  
Prayers from oval rooms and tables

You've made final defeat  
Grave thoughts substitute for bread  
There is no justice ever  
Empty words pass through your head

Last sunset  
For the world to see  
Last sunset  
Dark eternally
