Last Sunset

Hellshock

Dreamscape of a holocaust Followed where no one else would tread Exodus to illusion We're all buried where you've led

You can't hold your forked tongue
Will you desurve as you've labeled
You've carved a twisted fate
Not on the side of devils or angels
No wait left for the end
Prepare for the worst Cains and Abels
Last supper for their lies
Prayers from oval rooms and tables

You've made final defeat
Grave thoughts substitute for bread
There is no justice ever
Empty words pass through your head

Last sunset
For the world to see
Last sunset
Dark eternally
