```
You couldn't be, you couldn't be me even if you wanted to,
Everything I've been through.
Live your life, soaking up all my sunshine,
And smile your whole life,
I wouldn't know
18 wheels are rolling,
18 wheels are crushing,
Me down,
Running me down
Cars are crashing
Cars are crashin, all around me
Running me down,
All my days are numbered,
All my days are grey,
All my skies are covered,
All my ends are frayed,
You couldn't be, you couldn't be me even if you wanted to,
Everything I've been through. You wouldn't know
Live your life, soaking up all my sunshine,
And smile your whole life,
I wouldn't know
Lightning's crashin'
Thunder's rolling all around me,
Bringin me down
Stars are falling,
Fires lighting all around me,
Burning me down
All my days are numbered,
All my days are grey,
All my skies are covered,
All my ends are frayed,
You couldn't be, you couldn't be me even if you wanted to,
Everything I've been through. You wouldn't know
Live your life, soaking up all my sunshine,
And smile your whole life,
I wouldn't know
Feels like I'm falling down,
Inside a fever rising,
Buried my life deep in the ground,
Left my existence lying, so lets go
You couldn't be, you couldn't be me even if you wanted to,
Everything I've been through.
Live your life, soaking up all my sunshine,
And smile your whole life,
I wouldn't know
```
