

Right in step with every other stupid fucking dimwit
You and me together never mean it
Show me how to meditate but I don't wanna clean up
Hand off in the bathroom, lock the door, get a straw, nobody
Nobody seen us
Feet first, head down
Nobody else around

Creeps in, creeps out
Creeps in, creeps out

Handing out advice I got more than I ever needed
There's a cure for death it's everlasting you believe it
Flesh, bones, skin, teeth
Like you, like me
I don't know I'm wide awake
Who to talk to, who to hate
Feet first, head down
Nobody comes around

Oh, oh, oh, oh, oh, oh, oh
Oh, oh, oh, oh, oh, oh

Out of sight, out of your mind
Every day and up all night
Out of sight, out of your mind

Oh, oh, oh, oh, oh, oh
Oh, oh, oh, oh, oh, oh

You, me, us, them
Anyone goddamn
Who's the fuck up?
I'm the fuck up
Shut the fuck up, shut the fuck up!
