

# I Can Take Or Leave Your Loving

Herman's Hermits

I don't need her  
Don't need her kind of heartache and pain  
She's gonna have to see  
Things now can never be the same again

I won't miss her  
Well, maybe I'll miss her once in a while  
She thinks I'm gonna die  
Now that she's said goodbye  
But she's so wrong  
Her eyes just smile

Baby baby, don't you believe it?  
When it comes to your lovin', I can take it or leave it  
Baby baby, don't you believe it?  
When it comes to your lovin', I can take it or leave it  
I can take or leave your lovin'  
I can take or leave your lovin'

I'm not sorry  
I still think we're better apart  
She says she's gonna see  
A day when there's gonna be a change of heart

Baby baby, don't you believe it?  
When it comes to your lovin', I can take it or leave it  
Baby baby, don't you believe it?  
When it comes to your lovin', I can take it or leave it  
I can take or leave your lovin'  
I can take or leave your lovin'
