

I Wonder

Herman's Hermits

I wonder what you're doing now
I wonder where you are
Last night I gazed
Into the sky
As a cloud could see our He said I was too young for you
A love was all ingained
And now you're gone
And left me blue
And my heart is filled with pain

And I As At night I see your face
In my dreams I hear your sight

I wonder if he's by your side
The one you left me for
But darling this
I tell you now
Only you
Could I
Adore
