

# Listen People

Herman's Hermits

Listen people to what I say  
I say everybody's got to have their day

And don't you know that  
Everybody's got to love somebody sometime  
Everybody's got to win a heart  
Everybody's got to love somebody sometime  
When you do, I hope you never part

I once found love, found love just like you  
But then he came, he might come to you

And don't you know that  
Everybody's got to lose somebody sometime  
But everybody can part  
Everybody's got to lose somebody sometime  
So take care that you don't lose your heart

Take my advice and you'll always find  
You'll be happy all of the time  
Take my advice and you will see  
You'll be happy as you can be

Listen people to what I say  
I say everybody's got to have their day

And don't you know that  
Everybody's got to love somebody sometime  
Everybody's got to win a heart  
Everybody's got to love somebody sometime  
When you do, I hope you never part  
You never part  
Listen people
