

## What You're Up Against

Hey Mercedes

Monday

This is what you're up against  
Your head rings to the rhythm of the alarm  
Clock time in breathe in time out breathe out  
I doubt that this is what you're all about

Tuesday

This is what you're up against  
The television and your version of aversion  
The car the candy and the shower curtain  
Blurting out the answers  
You didn't even ask for  
But it's bound to get better  
It better

Slow motion replay

Day in day out

We came all this way now

We'll fire up just to push them down

Hello

Human, we've got a little problem here  
Us babies need to back up to the base or  
Do you want to fake it  
Kiss it just to taste it  
A door in the face or  
A face on the floor

Well

Tonight

This is what I'm up against  
Five drinks and a season of surrendering  
Come out come out we all give up  
Got too tough and enough is enough  
Wait I can see

Our selves set free

The sound and the string and

You and me

Slow motion replay

Day in day out

We all came this way now

We'll fire up just to push them down

I can't wait to see you wait

Wait I can see

Our selves set free

The simmering sea and

You and me
