

## Music

Hibria

Oh I hear the music and it keeps me feeling free  
Just hear the music, I don't need your luxury  
No politics, no religion, baby  
Just plug and play, that's how it's gonna be

My guitar will speak so clearly  
Can't hold on any longer I will shout so loud!  
Scream, feel the song penetrating your brain  
Scream, come with me, would you yell insanely?

When the band is ready and the amp starts to hum  
You'll scream much louder  
Feeling you can't run away  
Feeling good you wish to stay  
You'll scream much louder  
Feeling good you wish to stay  
That's the music taking over your own mind

Oh I hear the music and it keeps me feeling free  
Just plug and play, that's how it's gonna be

My guitar will speak so clearly  
Can't hold on any longer I will shout so loud!  
Scream, feel the song penetrating your brain  
Scream, come with me, would you yell insanely?  
Scream, feel the groove, band your head, dear baby  
Scream, come with me, would you yell insanely?

When the band is ready and the amp starts to hum  
You'll scream much louder  
Feeling you can't run away  
Feeling good you wish to stay  
You'll scream much louder  
Feeling good you wish to stay  
Feeling great to rock this way  
Can you feel it? Can ya? Music is the only way!

Play out, my friend, play out and you'll be ready to stand  
Play out, my friend, music speaks for itself, you bet!
