

One day, all so sad
Take it as a gesture
Best I can
I'm hesitant feel your love again
We parted on the shoreline
Alone on the earth

You and me
We were strangers
We always said
Deliver us the sun
Won't you come?

Patient
To be patient again
There's a shift in the balance
And it feels safe
Standing at the shoreline
You tear us apart

Feel alright
Not a day will coincide
Not that I believe
I believe

You and me
We were strangers
We always said
Deliver us the sun
Won't you come?

Feel alright
Not a day will coincide
Not that I believe
I believe

You and me
We were strangers
We always said
Deliver us the sun
Won't you come?
