

# The Last Song

Hilary Duff

Someday you will find the place  
It's the place where love takes over hate  
Then you'll see all the things you do  
Affect everyone around you

Then you'll see there's no fear at all  
You held my hand, we took down that wall  
As I looked at you with nothing to say  
Now I understand why you pushed me away  
I went far and now I see  
That the only one I needed was me
