

I Will Be The End Of You

HIM

Come on this holy night
Craving love, everything for love
See has the fire in lies
Tapping your eyes on your head

Love's screaming
I will be the end of you
Love's breathing
Can you smile, love?
For this terrible past
Show me all you have lost
I will be sorrow for you

Loves me more
May seen for that shadow to smile
The weirdest lies to me

Love's screaming
I will be the end of you
Love's breathing
Can you smile, love?
For this terrible past
Show me all you have lost
I will be sorrow for you

I'm all that lies for you

Love's screaming
I will be the end of you
Love's breathing
Can you smile, love?
For this terrible past
Show me all you have lost
I will be sorrow for you

I'm all that lies for you
So feel, I'm all that lies for you
So feel
