

In The Arms Of Rain

HIM

Once again we found ourselves to be lost
Holding hands while straying from the path in the forest dark
Aren't you happy to see me crawl serpentine towards the sun to
you?

Lift the lid off your heart's casket in the arms of rain
Drift along this river of sadness 'til we feel no pain
Baby stop, Hail Maries for the secret you kept from me
Hail Maries but tomorrow's dream
In the arms of rain we are free

Again, I fought myself and lost
Come bite the apple and I'll coil around your heart
I'm so happy to see you weep along in these arms you belong

Lift the lid off your heart's casket in the arms of rain
Drift along this river of sadness 'til we feel no pain
Baby stop, Hail Maries for the secret you kept from me
Hail Maries but tomorrow's dream
In the arms of rain we are free

Ave Maria, we've tried
Ave Maria, we've cried
Ave Maria, we've died

Lift the lid off your heart's casket in the arms of rain
Drift along this river of sadness 'til we feel no pain
Baby stop, Hail Maries for the secret you kept from me
Hail Maries but tomorrow's dream
In the arms of rain
Lift the lid off your heart's casket in the arms of rain
Drift along this river of sadness 'til we feel no pain
Baby stop, Hail Maries for the secret you kept from me
Hail Maries
In the arms of rain we are free

It's the end of a road, hold me
It's the end of a road and we're free
