

The Antidote

Hint

Give me the antidote for all the pain in our lives, give me the
patience to see through to better nights. you have to feel good
about yourself to love someone else, now that there's time to
rebuild, the separation is hell

when it gets dark enough, you can see the stars
one of them is mine

don't take too long to decide
this time

you are the antidote, you are the cure in my life, you are the
strength to believe the path i've taken is right. when you can't
sleep at night and it's driving you mad, please hang on to the
light, it'll bring you back

when it gets dark enough, you can see the stars
one of them is mine

don't take too long to decide
this time

i hope you see this is real
i promise never to change
i've got my hand on your heart
and it's keeping me safe
