Siberian Itch

Hit the Lights

Reckless makes myself sick
Fake my own just to forget
I've got demons, they won't leave me alone
Choking on the noose I fell into
After all the shit that I've been through

Would I do it all again, change up anything
And if it ever takes the best of me, I've gotta let it go
(Break and I'm back up in it)

All we are a moment a wave
(I'm waking up)
Feeling like I'm lost in a dream I can't get out of
Fall apart, rebuild, begin again

I've been wasted, all my days spent
Sinking feeling got me chasing all these
Demons running out of control
Fascinated by the flame I fell into
Happy just to burn the brightest blue

Would I do it all again, change up anything
And if it ever takes the best of me, I've gotta let it go

All we are a moment a wave
(I'm waking up)
Feeling like I'm lost in a dream I can't get out of
Fall apart, rebuild, begin again

Give up, give out, give in
Break and I'm back up in it
Give up, give out, give in

All we are a moment a wave
(I'm waking up)
Feeling like I'm lost in a dream I can't get out of it
I'm leaving everything I need again
All we are a moment a wave
(I'm waking up)
Feeling like I'm lost in a dream I can't get out of
Fall apart, rebuild, begin again
