

Altered States

Hocico

Plain mind trip
I'll make you see, it's all in your head
Take your medicine

It kills the pain
It calms the mind
This reality it's merely a lie

Trapped in mind
Close your eyes
Try not to see
You will know it's all a show
Life's not what you live

Reality

All in this place makes you live in altered states
What you touch doesn't exist
I'll get you back to reality

Reality

Take your pills, they're here to entertain
They make you feel, like you're made of steel
