Everything Is Sunshine

The Hollies

I keep on thinkin about the things that make me cry I keep on thinkin about the things that make me die but everythin is sunshine when you hold my hand

If everybody knew you the way I do people wouldn't wear frowns the way they do 'Cos everything is sunshine when you hold my hand

Oh no how could it be You effect me Just by holding my hand by holding my hand

If everybody knew you the way I do people wouldn't wear frowns the way they do 'Cos everything is sunshine Everything is sunshine Everything is sunshine
